

### **Telecommunications Companies Notice to Subscribers**

The Restricted Call Registry Act (815 ILCS 402/30) requires local exchange telecommunications companies to provide notice at least once per year in a message contained in customers' bills or a notice in the information section of all telephone directories distributed to customers. Further, companies are required to include on their web site a link to the ICC's web page for the Restricted Call Registry. Companies may use the recommended language shown below or submit a draft of alternative language to Consumer Services Division for review prior to issuing the notice.
